Dear Jane,

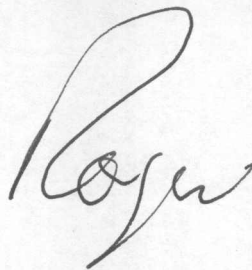

I want to put on record my gratitude and admiration for your team during my mother's decline and demise.

Everyone has been good.

But what Niccy and Anna did shortly after Mum died was way beyond the norm and, given that I have never been involved in a death situation, what they did just blew me away.

I will make my gratitude to the two of them marked, but this note is to tell you what I hope you know - you have two of the very best.

Yours sincerely,
